

Incomplete Notes from the Chat on May 20, 2020

These are the IUCr Teaching Pamphlets: <https://www.iucr.org/education/pamphlets>

I think XPREP can be installed on Mac. Purdue has the instructions (<https://www.chem.purdue.edu/xray/docs/Mac-Xray-SOP.pdf>). Note that XPREP is a Bruker product (not freeware).

This is a poster with one crystal structure for all of the 230 space groups:
<https://crystalsymmetry.wordpress.com/230-2/>

This is the Foxman tutorial (link also under Additional Resources in our program pdf):
<http://people.brandeis.edu/~foxman1/teaching/indexpr.html>

“The” shelx paper: <https://scripts.iucr.org/cgi-bin/paper?fa3356>

“The” PLATON paper: <https://onlinelibrary.wiley.com/iucr/doi/10.1107/S2053229614024929>
